Bill Writing Form

Bill No:

HR014-214

Issue: Phone use while driving

Sponsors: Representative Daylin Huebotter

I. **Intent of the Bill: The purposes of this bill are to:**

1. Provide safe roads and highways
2. Enforce no phone use while driving in all 50 states
3. Reduce accidents that could easily be prevented if people put their phones down
4. Save the lives of our American citizens

II. **Letter of the Bill: Be it enacted that:**

1. Texting while driving be illegal in all 50 United States of
2. America. There should be absolutely no phone use by
3. the driver in any vehicle, of any age while driving. This
4. law will be a primary enforcement and the first
5. infraction should just be a warning but if it should
6. become an issue again then there could be a maximum
7. fine of $85. The money from the fines will go to fund
8. highways. The police/highway patrol are in charge of
9. enforcing this law but the department of transportation
10. will also have a role enforcing this law because they are
11. in charge of all federal highways and to insure the safety
of transportation. Five seconds is the average time your
eyes are off the road while texting and while traveling at
55mph, that's enough time to cover the length of a
football field blindfolded.

Also in 2011 1.3 million (23%) of all car collisions involved cell phones and that number has increased each year. This law will benefit our society because it ~~would prevent accidents and you would have more~~ focus on the roads. This law will go into effect in the year 2015, on the first day of March.
